

Janine Kaiser

CV

I am a German-Australian production manager and TV producer with many years of experience as a production coordinator for fiction and documentary. As a person of planning I enjoy participating creatively and organisationally in the development of cinematic projects. Currently, I act as production manager on the popular German ZDF children's TV series "Löwenzahn" in Berlin and in 2021/22 as part of a production management duo I looked after the short film "Beben" by Australian director Rudolph Fitzgerald, which screened at the Directors Fortnight at Cannes in 2022. I am an alumni of Swinburne University of Technology. There I achieved a bachelor's degree in film and television production minoring in finance and was awarded the "Best Producer" award by Film Victoria for my graduate film "St Bernie". Ever since, I am being professionally mentored by producer Andrena Finlay and volunteer as a festival judge at the Canberra Short Film Festival and St Kilda Short Film Festival. Since December 2019 I have been living in Berlin, where I once started my career in production as a set runner on the teamWorx series production "Unschuldig!?"

Recent Productions
